

SecuRACK LCD
TYCKA CONSOLES

Securack LCD combines technology and human factors to create an innovative and efficient workspace. It addresses the new age requirement of flexibility and adaptability in console design. Modular and knock-down construction allows easy re-configuration to facilitate future growth. It is designed to accommodate technological advancements in display, equipments and systems.

FEATURES

- Ergonomic design conforming to ISO 11064 guidelines
- Sleek & Advanced styling with superior finish
- Suitable for standard LCD flat screens up to 21"
- Flat packed rugged metal construction
- Locking type secure keyboard trays
- Flexible mountings for monitor angle adjustments
- Rear panel to cover visibility between the monitors

APPLICATIONS:

Security & Surveillance | Building Management System | Command Centres | Data Centres | Audio & Video Centres | Machine consoles | Recording Centres | Air Traffic Control | Training consoles | Testing consoles | Industrial consoles | Custom design consoles | Speciality workstations

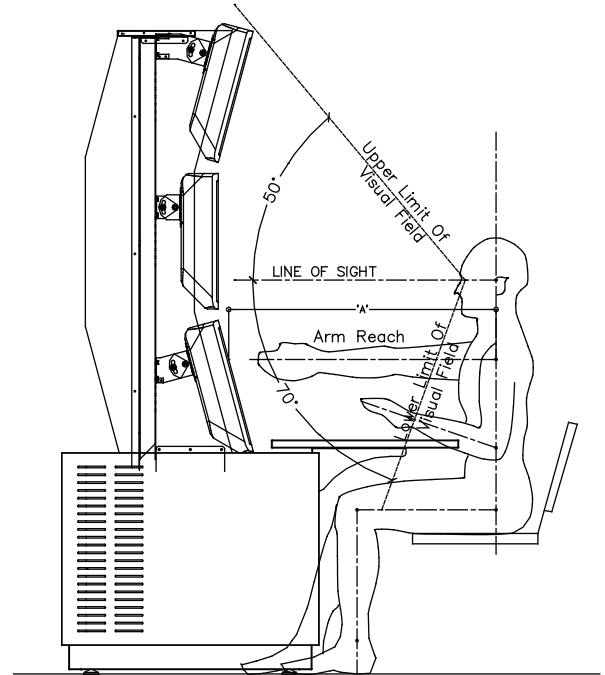

ERGONOMICS :

Utmost care is taken to develop products that are ergonomically appropriate. Various anthropometric dimensions are studied to arrive at ergonomic guidelines that are followed during the design process.

Workstudy of typical operators are done to ensure that physical interaction falls well within the permissible limits during normal as well as in emergency conditions.

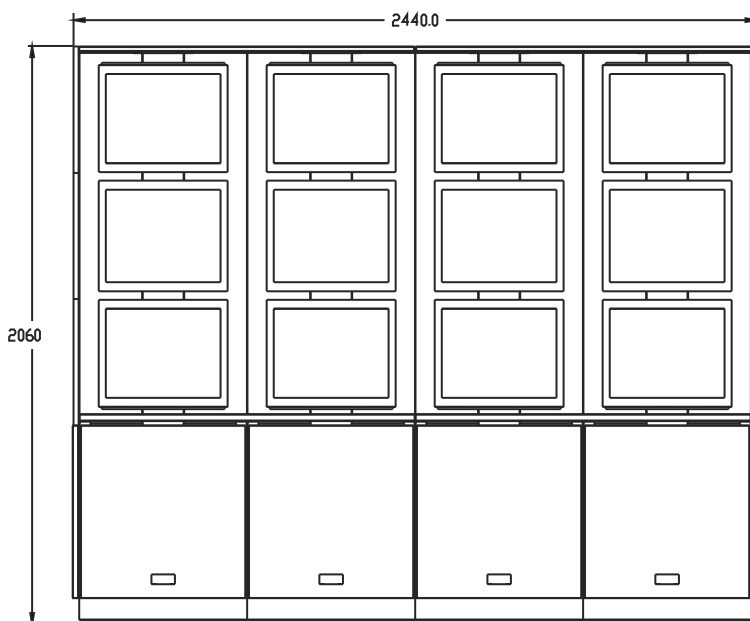

Our consoles are functionally superior, ergonomically appropriate and aesthetically pleasing.

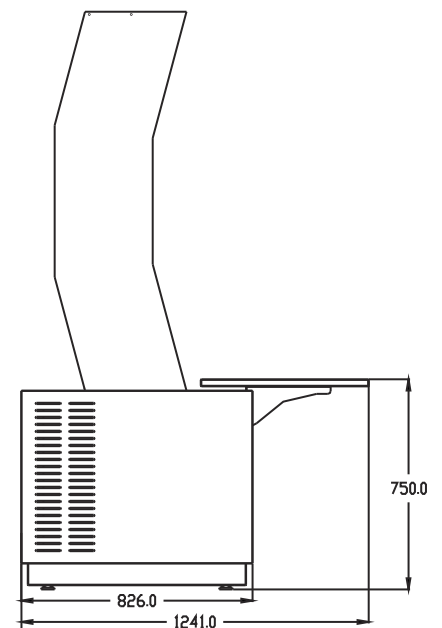

TECHNICAL SPECIFICATIONS:

- Construction :** Modular, knock-down construction in metal for structural stability.
- Table Surface :** Pre-laminated wood with PVC edge beading for soft edges.
- Exterior panels :** Powder coated hook-on metal panels with desired finish.
- Flexible Mounting :** Adjustable monitor mounts that could accommodate up to 21" diagonal.
- Keyboard tray :** Lock type key board tray for high security applications.
- Equipment Storage :** up to 14U 19" sub unit space under each console
- Wire Management :** Provision for horizontal wire manager trays
- Rear cosmetic panel :** which will block visibility in between the monitors.

Securack - CRT

Ideal solution for CCTV and other operator console applications that uses CRT monitors. Constructed in fully metal modular and knock-down minimizes handling and logistical hurdles. All exterior panels are metal with powder coated finish. Lock type keyboard trays with scratch resistant work-tops are part of the standard product. Each console accommodates up to 14U standard 19" rack mountable sub units. Wire management and thermal management are integral to the product with option overhead fan trays.

Installation at Al- Imam University , Saudi Arabia

MANUFACTURING :

Our products are manufactured on state of the art machines like CNC Turret punch press, CNC Hydraulic press break, digital controlled rivetting machines, capacitor discharge spot welding machines, advanced powder coating facility amongst others.

We are conscious about safety manufacturing practices and are hands on with industry best practices like Poke Yoke, FMEA, Kaizen and 5S implementation.

We adopt manufacturing processes which confirms to ISO 900:2008 to ensures international quality.

Single tier low profile console

TYCKA Consoles are a company focussed on design, development and supply of customized interface solutions that can deliver content efficiently. We have a strong background in human factors and ergonomics which are key to operator comfort and efficiency. Our eco design strategy ensures development of sustainable solutions that have high economic value and minimum impact to our ecology.
